# CAPITAL PLAN

The mission of a capital plan is to maintain and improve a local government's capital assets over time. It is a blueprint that defines major projects that the Town hopes to undertake and complete over the next five years in addition to the purchase of vehicles and equipment that have greater than a five-year life span. The Planning process includes "must do" projects such as road and bridge repairs as well as the "it would be nice to have" projects such as a new park and / or recreational facilities

This process is based on:

Departmental priorities – Department Heads have the greatest familiarity with their particular capital projects and needs. Asset condition data and the subject matter expertise of the department head need to be taken into consideration.

Departments create project lists that reflect the urgency of needs from an operational perspective.

Fiscal Priorities – This focus is on factors such as the impact projects will have on affordability measures, debt service costs, capital reserve funds, cash flow and operating costs once the project is completed. Funding sources need to be verified and the timing of project costs must be examined.

Executive priorities – The Town Board needs to effectively prioritize all projects and purchases over time so that capital costs fit within fiscal and budgetary constraints

The process prioritizes and ranks projects in order of importance so the Town Board can evaluate requests. The nature and importance of individual projects dictate which must be accomplished in year one and which can be deferred to future years. By creating a multiyear plan, future capital needs can be identified and appropriate resources earmarked for use when needed.

The capital program is updated and modified annually and a new budget developed and approved for the upcoming fiscal year. The Town is responsible for maintaining and improving a substantial portion of our public infrastructure. Creating an effective multiyear capital planning process will help meet this significant financial responsibility without overburdening taxpayers or disrupting vital services.

## PARK AND IMPROVEMENT DISTRICTS

The Town of Yorktown operates six park districts and one lake improvement district.

These districts were created over the last thirty years at the request of residents in each of the geographical areas to improve the quality of life in their particular neighborhood.

Four of these Park Districts ~ Amazon Park, Mohegan Beach, Mohegan Highlands and Shrub Oak Lake Estates ~ are located and operate summer beaches on Mohegan Lake. Shrub Oak Community Beach Park District is situated in the Shrub Oak Hamlet on a widened and dammed part of the Shrub Oak Brook. It also provides a park facility for district resident use.

The Bethel Acres Park District was created during the planning and subsequent approval of the Bethel Acres Subdivision. It is an area of scenic woodlands located on Granville Court in the vicinity of the Franklin Roosevelt State Park.

The Lake Mohegan Improvement District includes most of the homes in the Mohegan Lake Hamlet. It was created solely for the purposes of maintaining and enhancing the quality of waters of Lake Mohegan and its surrounding area.

The use of these areas is exclusive to district residents. Budgets for each of these districts are prepared by the elected district boards and submitted to the Town Comptroller. The Town collects monies through taxes from each of the district residents according to each district's budget.

The Town provides additional services to these districts primarily by the Finance Department who aids with and oversees accounts payable and administers district payrolls. The Parks & Recreation, Highway, Engineering, Legal, Town Clerk and Building Departments, provide assistance as requested to maintain and operate the beach areas.
