HOLLAND SPORTING CLUB
AIR SAMPLING

Supervisor Grace explained that he was notified that a roof had collapsed at the Holland Sporting Club. An Asbestos Contamination Assessment was performed on the property. This survey is required when there is a roofing collapse on a structure scheduled for asbestos roofing abatement occurs.

A visual inspection of the site was completed by a NYS-DOL certified Asbestos Inspector. Heavy rains and high winds are suspected of causing the roof collapse. Some of the roofing materials have been found in adjacent exterior grounds. A variance for the cleanup was requested and granted.

The work must be done in accordance with variance 12-0529.

Excel has provided the Town with a proposal for the cleaning and disposal of category 1 non-friable roofing pieces caused by the collapse of the roof.

The Department of Health has found the proposal satisfactory.
