**2a. Description of activity in the wetland and/or wetland buffer. Describe the proposed work including the following: i.e. maintenance, construction of dwelling, addition, driveway, culverts, including size and location.**

General wetlands permit for the activities of the Mohegan Lake Improvement District (MLID) to maintain and improve the lake environment for the homes, 7 beaches, and Town parkland. These activities may include fish stocking, aeration, weed harvesting, garbage cleanup, maintenance of aeration sheds/equipment, maintenance of areas to access the lake, removal of invasive species, and chemical treatments to control harmful algal blooms and the toxins they produce. MLID applies for NYS DEC pesticide and wetlands permits as required. Currently submitted are permit applications to apply Copper Sulfate and/or Cutrine Ultra to control excessive blue-green algae blooms, and a proposal to apply alum to inactivate extremely high phosphorus levels, which are the primary cause of the blooms. All DEC permit applications to have licensed applicators treat the lake with aquatic herbicides or pesticides undergo thorough DEC review, and involve notice to the community around the lake. MLID works with lake management consultants to determine annual and long-term management strategies.

No application will be processed without the above-mentioned, required information.

**GENERAL CONDITIONS**

1. The permittee is responsible for maintaining an active application. If no activity occurs within a six (6) month period, as measured from the date of application, the application will become null and void. Applications fees are non-refundable.
2. The Town of Yorktown reserves the right to modify, suspend or revoke this permit at any time after due notice when:
  - a. Scope of the project is exceeded or a violation of any condition of the permit or provision of the law pertinent regulations are found; or
  - b. Permit was obtained by misrepresentation or failure to disclose relevant facts; or
  - c. Newly discovered information or significant physical changes are discovered.
3. The permittee is responsible for keeping the permit active by requesting renewal from the Approval Authority. Any supplemental information that may be required by the Approval Authority, including forms and fees, must be submitted 30 days prior to the expiration date. The expiration date is one year from the date the bond is paid to the Engineering Department. In accordance with Chapter 178 of the Town Code, Freshwater Wetlands, Section 178-16 -Expiration of a Permit.
4. This permit shall not be construed as conveying to the applicant any right to trespass upon private lands or interfere with the riparian rights of others in order to perform the permitted work or as authorizing the impairment of any right, title or interest in real or personal property held or vested in person not party to this permit.
5. The permittee is responsible for obtaining any other permits, approvals, easements and right-of-way, which may be required.
6. Any modification of this permit granted by the Approval Authority must be in writing and attached hereto.
7. Granting of this permit does not relieve the applicant of the responsibility of obtaining any other permission, consent or approval from the U.S. Army Corps of Engineers, N.Y.C. Department of Environmental Protection, N.Y.S. Department of Environmental Conservation or local government, which may be required.

**Instructions for Completing**

**Part 1 - Project Information.** The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

<b>Part 1 - Project and Sponsor Information</b>			
Mohegan Lake Improvement District (MLID)			
Name of Action or Project: Lake Improvement Activities			
Project Location (describe, and attach a location map): Lake Mohegan, Town of Yorktown, New York			
Brief Description of Proposed Action: The MLID goal is to improve the environmental quality of the lake for homeowners with lakefront property or access, for the 7 beaches and Town parkland. The lake is eutrophic, with high levels of phosphorus in the water/sediment. The high phosphorus levels result in overgrowth of aquatic vegetation, including invasives, and excessive blue-green algae blooms, resulting in Health Dept summer beach closures due to microcystin and other cyano-toxins exceeding State levels for safe recreational use. With homes and beach parks on the lake, it is impossible to prevent people/pets from coming into contact with lake water in the summer. Our primary goal in treating the lake with copper or other chemicals is to protect public health for lake users. All chemicals used, such as Copper Sulfate, Cutrine Ultra, or Alum, are applied by licensed applicators after NYS DEC review/receipt of DEC permits. MLID activities annually may include use of aquatic pesticides/herbicides/chemicals with DEC permits, aeration, weed harvesting to clear recreational areas, fish stocking, removal of invasives, and general maintenance activities.

**Part 2 - Impact Assessment. The Lead Agency is responsible for the completion of Part 2.** Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	<input type="checkbox"/>	<input type="checkbox"/>
2. Will the proposed action result in a change in the use or intensity of use of land?	<input type="checkbox"/>	<input type="checkbox"/>
3. Will the proposed action impair the character or quality of the existing community?	<input type="checkbox"/>	<input type="checkbox"/>
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	<input type="checkbox"/>	<input type="checkbox"/>
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	<input type="checkbox"/>	<input type="checkbox"/>
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	<input type="checkbox"/>	<input type="checkbox"/>
7. Will the proposed action impact existing:	<input type="checkbox"/>	<input type="checkbox"/>
a. public / private water supplies?	<input type="checkbox"/>	<input type="checkbox"/>
b. public / private wastewater treatment utilities?	<input type="checkbox"/>	<input type="checkbox"/>
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	<input type="checkbox"/>	<input type="checkbox"/>
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	<input type="checkbox"/>	<input type="checkbox"/>

	No, or small impact may occur	Moderate to large impact may occur
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	<input type="checkbox"/>	<input type="checkbox"/>
11. Will the proposed action create a hazard to environmental resources or human health?	<input type="checkbox"/>	<input type="checkbox"/>

**Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3.** For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
<input type="checkbox"/>	Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
