

Questions for the Town of Yorktown Bid and Specifications for the Implementation of a Smart AMI Water Meter System

Bid #W1-21

1. The bid form only has 2 spots for lump sum amounts and you are asking for system pricing, complete meter changeout, large meter testing and system maintenance for 20 years. Are we supposed to include all items in those 2 lump sum items or should we break down pricing to a more granular level? **All items in the scope of work are to be included in the lump sums on the Bid Proposal Form.**
2. What is the scoring criteria we will be judged on for the RFP? **See section 8 of the Bid Document.**
3. Will there be interviews scheduled for finalists to present more depth to our proposal? **The Town reserves the right to conduct the procurement in the process it deems to be in its best interests.**
4. Is it the desire of the Town to look at project financing? **Bidders may assume that the Town will finance the project through public financing mechanisms.**
5. Is an inventory of your large meters available listed out by brand, size and age? **No, they are not.**
6. Are your large meters in underground vaults, pits or inside the buildings, do you have photos of the large meter settings available? **The meters are located in a combination pits or vaults in addition to inside. We do not have photos available.**
