Subject: Rezoning

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon
My wife and I live in jefferson village. We are both strongly opposed to the proposal to rezone the rt 6 /6n corridor
The area cant absorb another 285 units with appx 500 +residents. Rt 6 and the medical profession are overwhelmed as is.
It now takes 30+minutes to go from jefferson village to stop and shop in the middle of the day. It takes 2 months to get a drs appt . 3+hrs in the emergency room and we have a lake that doesn't drain properly. Add this to the addition of these added units preventing the natural water absorption it is one catastrophic idea. If your concern is to beautify and revitalize the area build the 20 units that it is zoned for Clean the lake fix the drainage and build the mentioned athletic field. Anything other than this is not acceptable. Thank you
Jack and margaret ortiz-renzulli

Subject: Impact of 254 units

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Town Clerk Diana Quast:

It is with deep concerns that I write regarding the 254 housing units being considered for the Whispering Pines location in Yorktown. Although there are many things being considered this latest Town Board supported betrayal of the public trust headed by former Supervisor Mike Grace would affect the seniors, home owners, and all Yorktown tax payers. Traffic, tax abatements extended to the builders, and other perks they get will be paid for by we taxpayers.

I will address some of the many concerns we see coming our way. Putting 254 units into our school district will result in at least 150 additional students into our school budget higher taxes to pay for more buses, more gas to keep them running insurance to protect children on the buses, more drivers their salaries, benefits, monitors to ride the buses their salary, pension, benefits, health coverage, teacher aids with financial perks, to assist non English speaking students. The impact this will have on

Yorktown will be devastating to all especially fixed income seniors. Who will benefit from this??? not regular citizens, perhaps the people we elected to office who with this action are letting us down, we will let down the next election

Kindly bring this letter to the Boards attention it not only reflects my opinion but those of my neighbors and other Town residents.

Thank you for your help in bringing this to the Board.

Jeanne Troiano

Jefferson Village owner.

TO: Diana Quast, Town Clerk
June 24, 2024

**SUBJECT: Amending the law for an Overlay Extension for proposed project:
254 units**

If the Town Board votes to amend the law regarding the **PROCESS** of the Navajo project moving it into the overlay and the other resolutions that follow, perhaps the board should ask themselves, the following before voting:

How will the PROCESS help Yorktown? How will the construction of 254 units help, by destroying trees, the natural barrier against soil erosion preventing water run-off?

How will the PROCESS help Yorktown? How will a traffic study make a 2 lane road a 4 lane highway? Will it make the already overcrowded parking lots any bigger? Will it eliminate the additional 450+ cars. Will additional traffic lights and signage make these problems disappear?

How will the PROCESS help Yorktown? The elected officials who originally voted for 20 single family homes on 50 acres knew what they were doing, by not allowing Yorktown to go the way of other towns and cities with overcrowding. Do you really want to be the board whose legacy is the destruction of our suburban way of life???

How will the PROCESS help Yorktown? Has the present Town Board heard from ANY person or persons who are FOR this project except the attorney of record and the developer/owner of the property? As our elected representatives, how can you, in good conscience, vote for amending the law in favor of an overlay extension?

How will the PROCESS help Yorktown? Let us not forget the inevitable power outages with an additional 254 families using electricity. How does this help the existing homeowners?

How will the PROCESS help Yorktown? How will the increased school taxes for an additional, approximately 500 students help our residents?

How will the **PROCESS** help Yorktown? How will this project revitalize foot traffic commercially? Since covid, many more people **WORK** from home and **SHOP** from home.

I thank you for your attention regarding the decisions you will make affecting the future of Yorktown for many generations to come.

Sincerely,
Jo-Ann Sillik

Good afternoon,

Both my father and I live in Jefferson Village. We are both against the proposed 254 unit development on the 50 acre Navajo Fields site as well as the recycling plant.

To begin with, the traffic congestion would become a nightmare. It is already bad enough with speeding SUV's and pick up trucks. It would also contribute to additional air pollution.

Thank you for your consideration.

Sincerely,

Maria Ciano

To Diann Quast,
My name is Michael Prisco
I live in Jefferson village and I vote.
I am writing as I opposed to the proposed new 254 housing units planned and the recycling center to be built in my area. These units as well as the recycling center will negatively impact our area and directly impact the quality of life of the Jefferson Village residents. As you are aware, Jefferson Village residents are on a fixed incomes. With the rise in prices across the board in our country, state, and county, the proposed 254 units will increase taxes. Increased taxes places an unfair burden on those liveliness on fixed incomes, namely seniors like myself. Certainly our Incomes do not grow or keep up with all the rising costs we are faced with so to have taxes increased directly impacts and unfairly burdens seniors. In addition, the congestion that additional housing units will ring will negatively impact our area by adding to the already highly trafficked roads not to mention the pollution caused by the additional cars and traffic. Furthermore, adding another large housing unit will impact the area infrastructure taxing our water, sewer, electricly and other basic utilities. Don't let me forget get the increase in police, fire personal, etc. All of these impact the quality of life of current residents. And of course, keeping such maintained, there again, causing a rise in taxes. With respect to the recycling plant, honestly, can this not be built in a more secluded location so as not to impact the residents with unsightly building, odors and potential leaching of hazardous materials? What studies have been done and how do those who propose such new developments pass zoning? What is done to ensure that structures fit in appropriately to the natural landscapes? Why is our area now becoming a dumping ground? Could it be because of the extra burden of adding multi-hosing units continuously? There is only so much one community, seniors, and our environment can take, I ask you to assist in fighting these unnecessary new developments. Thank you for understanding assistance.
I also would like if you can answer for where is the elect going from the new solar farm across from Jefferson Village. It seems looking at my electric bill it just goes higher, I don't see any help from the farm. Please advise to where this elect power going I so I would like to know if possible.
Thank you again

Diana, I am against the idea of a transfer station amidst a residential area. I also think the proposed 254 unit development is too big. A project that size would change the character of Yorktown and have a negative effect on the quality of life in the neighborhood. Pleas rethink this project.

My Wife and I have been living in Jefferson Village for 25 Years. It has been a very nice surrounding Urban Lifestyle. The Commercial and Residential mix , at this time, mostly complement each other. This proposed 254-unit development on the 50-acre Navajo Fields site, especially including a Recycle Center, will destroy this Urban Lifestyle. It never ceases to amaze me, how in reality, the developers really do not care about the end results this will bring about for several miles in all directions. My wife and I, are dedicated voters. ---DO NOT ALLOW A RECYCLE CENTER ANYWHERE NEAR THIS URBAN COMMUNITY. THERE MUST BE SOMEPLACE, WHERE A RECYCLING CENTER CAN BE PUT WITH MINIMUM DISRUPTION TO THE NORMAL LIFE THAT MANY, MANY, WITHIN SEVERAL MILES HAVE. --The current status of the site should remain as is, and should not be changed.--- Whatever the end result will be----Please DO NOT ALLOW A RECYCLING CENTER AT THE PROPOSED SITE. THIS WILL DESTROY THIS AREA. (traffic--house values--big trucks to and from RECYCLING CENTER--even, most likely, the unpleasant odor. Thank You--Jay Tinger and Theresa Tinger.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I am against the proposed 254 unit development on the 50 acre Navajo Fields site. I am also opposed to the Alltrac Recycling Center proposal planned off of Route 6. Both these projects will negatively affect the people of Jefferson Village and the surrounding neighborhoods. The traffic from 254 units and the possibility of 300 waste trucks a day added to an already crowded roadway is unsustainable, not to mention the odor that will come from the plant itself and don't tell me that it won't because I've been in a number of them. These projects have one thing in common, GREED, how the town can even think of doing business with an 11 time convicted felon just boggles my mind. You should be ashamed of yourselves. If you want to improve and protect the Town of Yorktown then vote no to these projects. I live in Jefferson Village along with approximately 3,000 other voters, we as a community stand together on this issue, remember, WE VOTE!

have plans on widening Route 6? And if not, how can you justify adding more cars to this road when there are so many people, students, buses, commuters, residents and emergency vehicles using this road each day?

3. Lakeland Schools is already an enormous school district. It is twice the size of the Yorktown School District. It comprises 5 elementary schools from K-5. The middle school has 1,500 students plus teachers, administration and staff. It's so big, it has two gyms, a swimming pool and two cafeterias. Then the middle school splits into two high schools. We cannot afford to add any more students. We don't have the space or the teachers. And so even if any developments call for "senior" housing, any of those homes could easily be rented or bought by families too or rules could change at some point and exceptions can be made and more and more children could be added to Lakeland Schools. This is an undue and unfair burden upon the families of The Lakeland School District in Yorktown. When we purchased our homes here, NONE of this was anticipated or expected. We deserve the right to enjoy the benefits of excellent and uncrowded schools. Question: Can you lower the density in all of the development projects being suggested for this region? Can you promise all the citizens that no new students will be added to the schools?

4. The senseless destruction of Trees, Open Space and Habitat. There has been so much development in Yorktown over the last 20 years and this has accelerated over the last 10 years. We have lost 1000s and 1000s of trees throughout Yorktown. There are grave consequences to this. Everytime a tree is felled, it's gone forever and the forest it's attached to is closer to being destroyed. If a forest is destroyed, its natural filtration system is gone and air, water and soil can no longer be naturally filtered and will not be as clean. Add pesticide, fertilizer and chemical run-off from homes and businesses and our environment will just not be as clean and might even be toxic. Songbirds and migrating birds will die or will go elsewhere. Sleeping cicadas will die, never to emerge after 17 years. Trees help fight Climate Change. I would think Yorktown would want to be progressive and help fight climate change by preserving its important tree canopy as a wonderful asset. Removing forests kill native plants and habitat that sustain ground animals as well as our waterways and its aquatic and amphibian animals. Animals that help keep insects and vermin out of our homes will no longer be present. We rely on bats, owls, hawks, coyotes, foxes, snakes, opossums, frogs and toads to control ticks, flying insects, mice and rats. More development means more roadkill. It's terrifically sad that the swans that have been present in the pond on Granite Springs Road by Curry Street have either died or left. This has not happened in the entire time I've lived in Yorktown. We've always had two swans there, until 6 months ago. I think this egregious and profoundly sad circumstance is indicative of the attitude that Yorktown has towards its nature - that it's there to use and abuse and not to care and share. Yorktown is a family town but it's not acting like a family town. Because if Yorktown acted like a family town, conservation of its nature would be first on the list. Everyone knows that what is good for children is also good for the environment. Don't believe me? Maybe you can believe The Nature Conservancy: [Getting Kids Outside | The Nature Conservancy](#)

Question: How many trees and forests is okay for Yorktown to cut down? Can you tear down any existing buildings and return that land into forested land? Isn't open space and greenery good for Yorktowners to get to see and live near? Isn't this why we bought our homes here, for the greenery and peaceful natural areas? And so if greenery isn't important to you, then why is it part of your selling point of Yorktown throughout your town website. Regarding the developments discussed in

Councilwoman Luciana Haughwout
Councilman Patrick Murphy
Councilwoman Susan Siegel

Dear Supervisor Lachterman and Council:

I am writing to let the Town Board know that not all Jefferson Village residents are against the Navajo project. The project is in its early stages. I know that right now it is a **proposal**. You have explained that at least two board meetings. The numbers we are hearing are not a foregone conclusion.

I have confidence in our Town Council as well as our Planning Board. We need as a community to be moving forward. Many times residents are against something because they are afraid of change.

Sincerely,

Nav/Recy -
