**Date:** March 5, 2025  
**Subject:** Town Board Referral – Chapter 300  
Battery Energy Storage Systems

---

At its meeting of February 10, 2025, the Planning Board discussed the subject referral. The Planning Board respectfully requests that the current section of code not be removed in its entirety. Existing battery energy storage systems that were approved under the current law must be regulated as such, and therefore the law should remain in the code as a separate section for this purpose.

Respectfully submitted,

Ian Richey  
Town Planner
