## Full Environmental Assessment Form Part 1 - Project and Setting

## **Instructions for Completing Part 1**

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

## A. Project and Applicant/Sponsor Information.

| Name of Action or Project:<br>Town of Yorktown Code amendment to Chapter 250 - Streets and Sidewalks |                                     |                       |  |
|--|-------------------------------------|-----------------------|--|
| Project Location (describe, and attach a general location map):                                      |                                     |                       |  |
| Town of Yorktown   |                                     |                       |  |

| v. Is the project site subject to an institutional control limiting property uses?   | N/A    | □Yes□No                                  |
|--|--------|--|
| If yes, DEC site ID number:     Describe the type of institutional control (e.g., deed restriction or easement):   |        | W. W |
| <ul> <li>Describe the type of institutional control (e.g., deed restriction or easement):</li> <li>Describe any use limitations:</li> </ul>  |        |  |
| Describe any engineering controls:   |        |  |
| Will the project affect the institutional or engineering controls in place?  |        | ☐ Yes ☐ No                               |
| Explain:   |        |  |
|  |        |  |
| E.2. Natural Resources On or Near Project Site   |        |  |
| a. What is the average depth to bedrock on the project site?  N/A feet   |        |  |
| b. Are there bedrock outcroppings on the project site?   | NI/A   | □Yes□No                                  |
| If Yes, what proportion of the site is comprised of bedrock outcroppings?%   | 19/74  | LLJ I CSL_JINO                           |
| c. Predominant soil type(s) present on project site:   | %      | N/A                                      |
| *  | %<br>% |  |
| d. What is the average depth to the water table on the project site? Average:N/A feet  |        |  |
| e. Drainage status of project site soils: Well Drained: % of site  |        | N/A                                      |
| Moderately Well Drained: % of site   |        |  |
| Poorly Drained% of site  |        |  |
| f. Approximate proportion of proposed action site with slopes: 0-10%: % of site 10-15%: % of site  |        | N/A                                      |
|  |        |  |
| g. Are there any unique geologic features on the project site?  If Yes, describe:  | N/A    | □Yes□No                                  |
|  |        |  |
| h. Surface water features.   | N17A   |  |
| <ul> <li>i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers,<br/>ponds or lakes)?</li> </ul>   | N/A    | □Yes□No                                  |
| ii. Do any wetlands or other waterbodies adjoin the project site?  | N/A    | □Yes□No                                  |
| If Yes to either i or ii, continue. If No, skip to E.2.i.  |        |  |
| iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal, state or local agency?  |        | □Yes□No                                  |
| iv. For each identified regulated wetland and waterbody on the project site, provide the following informa   | tion:  |  |
| • Streams: Name Classification   |        |  |
| Lakes or Ponds: Name Classification  |        |  |
| • Wetland No. (if regulated by DEC)  Approximate S   | ıze    |  |
| <ul> <li>Lakes or Ponds: Name</li> <li>Wetlands: Name</li> <li>Wetland No. (if regulated by DEC)</li> <li>V. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies?</li> </ul> |        | □Yes □No                                 |
| If yes, name of impaired water body/bodies and basis for listing as impaired:  |        |  |
|  |        |  |
|  | I/A    | □Yes □No                                 |
| j. Is the project site in the 100-year Floodplain?   | N/A    | □Yes □No                                 |
| k. Is the project site in the 500-year Floodplain?   | N/A    | □Yes □No                                 |
| If Yes:  |        | □Yes □No                                 |
| i. Name of aquifer:  |        |  |

| m. Identify the predominant wildlife species that occupy or use the project site:  N/A   |             |                     |
|--|-------------|---------------------|
| n. Does the project site contain a designated significant natural community?  If Yes:  i. Describe the habitat/community (composition, function, and basis for designation):   | N/A         | □Yes□No             |
| ii. Source(s) of description or evaluation:  iii. Extent of community/habitat:  • Currently:  • Following completion of project as proposed:  • Gain or loss (indicate + or -):  acres  acres  |             |                     |
| <ul> <li>o. Does project site contain any species of plant or animal that is listed by the federal government or NY endangered or threatened, or does it contain any areas identified as habitat for an endangered or threat If Yes: <ol> <li>i. Species and listing (endangered or threatened):</li> </ol> </li> </ul>                    | ened specie | ☐ Yes☐No<br>es? N/A |
| <ul> <li>p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a spec special concern?</li> <li>If Yes: <ul> <li>i. Species and listing:</li> </ul> </li> </ul>   | ies of      | □Yes□No<br>N/A      |
| q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing?  If yes, give a brief description of how the proposed action may affect that use:   | N/A         | ∐Yes ∏No            |
| E.3. Designated Public Resources On or Near Project Site   |             |                     |
| a. Is the project site, or any portion of it, located in a designated agricultural district cortified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304?  If Yes, provide county plus district name/number: Westchester County - properties and farms exist in the to  |             | ☐Yes☐No             |
| b. Are agricultural lands consisting of highly productive soils present?  i. If Yes: acreage(s) on project site?  ii. Source(s) of soil rating(s):   | N/A         | □Yes□No             |
| <ul> <li>c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark?</li> <li>If Yes: <ul> <li>i. Nature of the natural landmark:</li> <li>ii. Provide brief description of landmark, including values behind designation and approximate size/e</li> </ul> </li> </ul> |             |                     |
| d. Is the project site located in or does it adjoin a state listed Critical Environmental Area?  If Yes:  i. CEA name:  ii. Basis for designation:  iii. Designating agency and date:  | N/A         | □Yes□No             |
| Designating agency and date.   |             |                     |

| e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district N/A Yes which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the Norfice of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places? If Yes:  i. Nature of historic/archaeological resource: Archaeological Site Historic Building or District  ii. Name: | No<br>VYS |
|--|-----------|
| iii. Brief description of attributes on which listing is based:  |           |
| f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?  | 10        |
| g. Have additional archaeological or historic site (s) or resources been identified on the project site?  N/A  | No        |
| h. Is the project site within fives miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource?  N/A  If Yes:  i. Identify resource: Taconic Parkway Scenic Byway  | 40        |
| ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic bywa   | y,        |
| etc.):  iii. Distance between project and resource:  N/A miles.  |           |
| <ul> <li>i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers N/A Yes Program 6 NYCRR 666?</li> <li>If Yes: <ul> <li>i. Identify the name of the river and its designation:</li> <li>ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666?</li> <li>Yes Yes</li> </ul> </li> </ul>  |           |
| ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666?   | <br>40    |
| F. Additional Information Attach any additional information which may be needed to clarify your project.  If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus at   | ny        |
| measures which you propose to avoid or minir ize them.   |           |
| G. Verification I certify that the information provided is true to the best of my knowledge.   |           |
| Applicant/Sponsor Name Ed Lachterman Date  |           |
| Signature Title Town Supervisor  |           |
| *1   |           |

| Full Environmental Assessment             | Form        |
|---|-------------|
| Part 2 - Identification of Potential Proj | ect Impacts |

|          | Agency Use Only [If applicable] |
|----------|---------------------------------|
| Project: |                                 |
| Date:    |                                 |

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

### Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

| Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1)  If "Yes", answer questions a - j. If "No", move on to Section 2. | <b>Z</b> NO                       |  | YES   |
|--|-----------------------------------|--|---|
|  | Relevant<br>Part I<br>Question(s) | No, or<br>small<br>impact<br>may occur | Moderate<br>to large<br>impact may<br>occur |
| a. The proposed action may involve construction on land where depth to water table is less than 3 feet.  | E2d                               | а                                      | О   |
| b. The proposed action may involve construction on slopes of 15% or greater.   | E2f                               |  | D   |
| c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.   | E2a                               |  |   |
| d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.   | D2a                               |  | О   |
| e. The proposed action may involve construction that continues for more than one year or in multiple phases.   | Dle                               |  |   |
| f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).  | D2e, D2q                          |  |   |
| g. The proposed action is, or may be, located within a Coastal Erosion hazard area.  | Bli                               | 0                                      |   |
| h. Other impacts:  |                                   |  |   |

| 2. Impact on Geological Features  The proposed action may result in the modification or destruction of, or inhi  |                             |  |   |
|--|-----------------------------|--|---|
| access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)  If "Yes", answer questions a - c. If "No", move on to Section 3.   | <b>∑</b> NC                 | ) [                                    | ]YES  |
| s  | Relevant Part I Question(s) | No, or small impact may occur          | Moderate<br>to large<br>impact may<br>occur |
| a. Identify the specific land form(s) attached:  | E2g                         |  |   |
| b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark.  Specific feature:  | E3c                         |  |   |
| c. Other impacts:  | į                           |  | O   |
|  |                             |  |   |
| 3. Impacts on Surface Water  The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h)  If "Yes", answer questions a - 1. If "No", move on to Section 4. | ZNO                         | ) [                                    | YES   |
|  | Relevant Part I Question(s) | No, or<br>small<br>impact<br>may occur | Moderate<br>to large<br>impact may<br>occur |
| a. The proposed action may create a new water body.  | D2b, D1h                    |  |   |
| b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.   | D2b                         |  |   |
| c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.  | D2a                         |  | D   |
| d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.   | E2h                         | 0                                      |   |
| e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.  | D2a, D2h                    |  | 0   |
| f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.   | D2c                         |  |   |
| g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).   | D2d                         | D                                      |   |
| h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltatio or other degradation of receiving water bodies.  | D2e                         |  |   |
| <ol> <li>The proposed action may affect the water quality of any water bodies within or<br/>downstream of the site of the proposed action.</li> </ol>  | E2h                         |  |   |
| <ol> <li>The proposed action may involve the application of pesticides or herbicides in or<br/>around any water body.</li> </ol>   | D2q, E2h                    | П                                      |   |
| The proposed action may require the construction of new or expension of existing   | Die Day                     |  | _   |

wastewater treatment facilities.

| I. Other impacts:  |                             |  | 0   |
|--|-----------------------------|--|---|
| 4. Impact on groundwater  The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquife (See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t)  If "Yes", answer questions a - h. If "No", move on to Section 5. | ☑NO<br>er.                  |  | YES   |
| ij Tes , unswer questions a - n. ij 100 , move on to becitor e.  | Relevant Part I Question(s) | No, or<br>small<br>impact<br>may occur | Moderate<br>to large<br>impact may<br>occur |
| a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.   | D2c                         | ם                                      |   |
| b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer.  Cite Source:   | D2c                         | O                                      |   |
| c. The proposed action may allow or result in residential uses in areas without water and sewer services.  | Dla, D2c                    |  |   |
| d. The proposed action may include or require wastewater discharged to groundwater.  | D2d, E2l                    |  |   |
| e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.  | D2c, E1f,<br>E1g, E1h       | D                                      | D   |
| f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.   | D2p, E2l                    |  |   |
| g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.   | E2h, D2q,<br>E2l, D2c       | а                                      |   |
| h. Other impacts:  |                             | D                                      |   |
| 5. Impact on Flooding  |                             |  |   |
| The proposed action may result in development on lands subject to flooding. (See Part 1. E.2)  If "Yes", answer questions a - g. If "No", move on to Section 6.  | NO                          | ) [                                    | YES   |

# Full Environmental Assessment Form Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

### **Reasons Supporting This Determination:**

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact
  occurring, number of people affected by the impact and any additional environmental consequences if the impact were to
  occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

| §  |
| and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the   |
| A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.  |
| B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:   |
|  |
| There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).  |
| C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued. |
