REQUEST FOR INFORMATION

RFI NO.: 24

PROBLEM DESCRIPTION

1. **SUGGESTION # 1:** Make Earthwork a lump sum.
 2. **SUGGESTION # 2:** Town to purchase asphalt, contractors give price for trucking, installation only
 3. **SUGGESTION # 3:** Schedule: March 2018 is an unrealistic completion date \$1,500/day liquidated damages will drive the price up due to this unrealistic time frame.
 4. **COMMENT:** Bat Issue -cannot start cutting trees until October 1st because of bats-Trees get cut first
 5. **COMMENT:** The project is phased; each phase has to be complete & established before you go into the next phase. Each phase could take 6-8 weeks to complete, weather permitting. With a total of 7 phases, this will take up to a year to complete. Next August (2018) is a more realistic completion date for this project. January, February & sometimes March are usually unworkable months in this industry due to weather.
 6. **COMMENT:** Yorktown's subcontractors (Turf, Buildings) will have to work together with the contractor on this project in order to coordinate and keep on schedule.
 7. **QUESTION:** At the walk through, playground equipment was discussed. We are unable to locate this information anywhere in the plans or specifications. Please advise.
- Please take our comments and suggestions into consideration. This is a great project, but it needs to be completed in a timely fashion.

SPECIFICATION/DRAWING REFERENCE:

INITIATED BY: STEPHEN VIEIRA, PRESIDENT

APPROVAL

DATE REQUIRED BY:

SIGNATURE:

PROBLEM SOLUTION

1. No Change will be made.
2. No Change will be made.
3. The Liquidated Damages Clause will be removed from the Contract Documents.
4. This was addressed in RFI 6 above.
5. The Phasing of the Project will be revised and issued under Addendum #3. The Completion Date will be changed to April 15, 2018. This was addressed in RFI 15 above.
6. Coordination between sub-contractors is required under this contract and is stated in the Contract Documents.
7. The Playground Equipment will be Furnished and Installed by the Town. The Contractor is responsible only for the preparation of the Site under Item 0301.1 Asphalt Overlay.
